**RE: Fas-Trak Industries**

**Dear Mark:**

After reviewing the information you provided me with regarding your product Ultra Dry Portable Cordless Safety Cleaning System, I am of the opinion that this device could provide facility protection and perhaps contribute to a reduction in accidents associated with wet and unsafe flooring situations, which are quite common. Based upon my experience in general litigation, a negligent party, such as a building owner, could be subject to injuries which are incurred as a result of wet floors. Prevention of these type of accidents has always been the best line of defense as it relates to slip and fall cases. If I can be of any further assistance to you, please feel free to contact me.

Sincerely,

  
Mark T. Hickey
