FASTRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the maintenance & janitorial industry. Our passion is to create innovative performance solutions by redefining floor care processes.

Our proprietary patented technology is industry proven and addresses the main challenges related to floor care issues today namely – labor savings as well providing superior results. Our product solutions can be used on tile, terrazzo, concrete, gym floors and many other floor surfaces.

Our customer base is a who's who which include Broward County, Houston and Greenville school systems, US Postal Services, Southeast Services and Abbott Labs to name a few.

FAQ's

Q. What cleans the pads?
A. Fas-Pad utilizes both centrifugal energy and spray jet water pressure to remove soil from the pads.

Q. Do I need a special hook-up?
A. No, Use standard 110 V hook-up and a standard water source with drain.

Q. How long will my pads last?
A. Our studies indicate that the most common pad cleaned is a burnishing pad which lasts 3x longer when using our technology.

Q. Can I clean without using chemicals?
A. Yes. The spinning motion and water jet pressure dislodge the soil from the pad without chemicals.

SPECS AND FEATURES
