ULTRA-MOP

Pressurized Flat Mop Cleaning System

Confused by what “Green cleaning” means? Fas-Trak Industries is proud to announce the ULTRA-MOP, the revolutionary pressurized flat mop system!

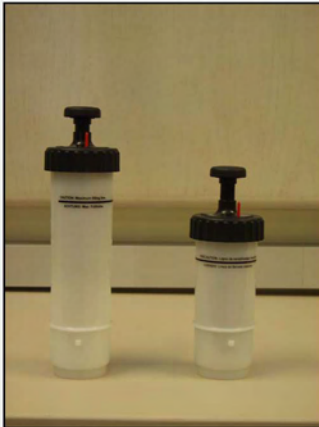

The ULTRA-MOP is lightweight, ergonomic and environmentally responsible. It’s superior cleaning efficiency with convenient thumb-control dispensing, uses 70% less chemical and water resources than conventional mops.

FAS-TRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the maintenance & janitorial industry. Our passion is to create innovative performance solutions by redefining application processes.

Our customer base is a who's who which include Broward County, Houston and Greenville school systems, Mall of America, US Postal Services, Southeast Services and Abbott Labs to name a few.

FAQ's

Q. Why is pressurized application needed?

A. Our proprietary design allows for consistent, uniform and accurate delivery of chemicals which improves cleaning and time results.

Q. I have used other tank systems and found them to clog up. How do you prevent that?

A. The Ultra-Mop is *pressurized* not gravity-fed. We also have a large removable plastic spray nozzle filter that cleans in seconds. Our pressurized design is the best delivery system on the market with proven success.

Q. Does this pressurized technology have any other benefits?

A. Yes. The platform is designed to use less water and chemicals to clean.

ULTRA-MOP

Pressurized Flat Mop Cleaning System

SPECS AND FEATURES

- Cost effective: 3x more productive than a conventional string mop
- Hygienic: Uses a premium washable micro-fiber or disposable pad
