FAS-TRAK APPLICATIONS

Fas-Trak Industries is a proactive innovative manufacturer of performance related application technology for the maintenance & janitorial industry. Our passion is to create innovative performance solutions by redefining application processes.

Our proprietary patented technology is industry proven and addresses the main challenges related to floor care issues today namely – labor savings as well providing superior results. Our product solutions can be used on tile, terrazzo, concrete, gym floors and many other floor surfaces.

Our customer base is a who's who which include Broward County, Houston and Greenville school systems, US Postal Services, Southeast Services and Abbott Labs to name a few.

"We have been using the Fas-Trak system here and are ecstatic about the results we are getting. Thank you for introducing us to Fas-Trak. We consider it to be an instant success."

Laura Orth, Housekeeping Manager

FAQ's

Q. How does this gravity type Micro-Trak Detail Applicator differ from others?

A. Our Micro-Trak is designed by taking the end user in mind. The removable tank and valve assembly allowing for easy cleaning and maintenance. The finish or sealer also is dispensed through one large 1/4 orifice instead of feeding through a series of tiny holes.

Q. Can you use coatings in the Micro-Trak?

A. Yes. Our design allows for the application of gym coatings and other type viscous products

Q. What about the unused product?

A. Remove tank and return the unused chemical to the original container. No fuss. No waste.
